

Step to connect BU-Advanced or BU-Standard

Note: This is a general setup guide. The steps may vary on different Android versions.

1. Select "Settings" > "Wi-Fi" > "BU-Advanced".

2. Select "Advanced options", input the parameters as below, click "Connect", then done.

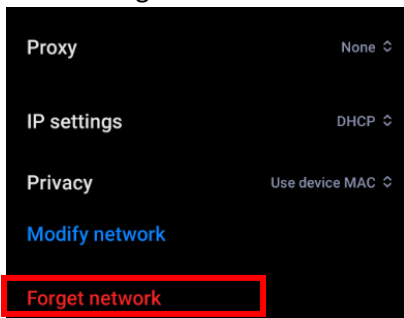

****Important**** - You may still get connected by select "BU-Advanced" and simply input your SSOid and password only, but it has a security risk. **In order to prevent your credential from stolen over-the-air, please strictly follow this setup guide.**

Step to forget BU-Advanced or BU-Standard

1. Select "Settings" > "Wi-Fi" > "BU-Advanced".

2. Select "Forget network" and OK to confirm.
