Do not validate

Domain
Must specify a domain.

Privacy   Use device MAC

Identity

Simple options   Connect

EAP method: PEAP

Phase 2 authentication: MSCHAPV2

CA certificate: Use system certificate

Online Certificate Status: Do not validate

Domain: cert.hkbu.edu.hk

Privacy: Use device MAC

Identity: Your SSOid

Password: Your password

*** If you have an option "Client certificate", select N/A

5 Follow the setting in the table on the right, then click '**Connect**'.

Note: **BU-Advanced** or **BU-Standard** Wi-Fi can still be accessed by entering an SSOid and password. However, this method poses a security risk as credentials could be intercepted during transmission. To ensure account security, the recommended settings should be followed strictly.
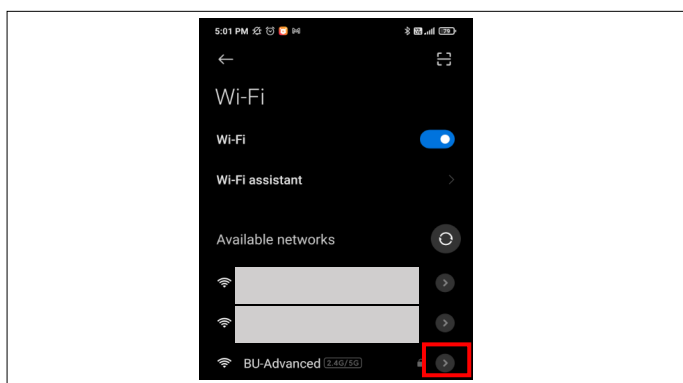

## B. Forget BU-Advanced or BU-Standard Wi-Fi

1 Tap 'Settings' on your Android device.

2 Tap 'Wi-Fi' from the setting.

3 Tap next to the specific Wi-Fi.

4 Click 'Forget network' to forget that Wi-Fi.
