

## Set Up and Manage BU-Advanced and BU-Standard Wi-Fi on iOS Device

- A. Connect to BU-Advanced or BU-Standard Wi-Fi
- B. Forget BU-Advanced or BU-Standard Wi-Fi
- C. Disable Private Address

## A. Connect to BU-Advanced or BU-Standard Wi-Fi

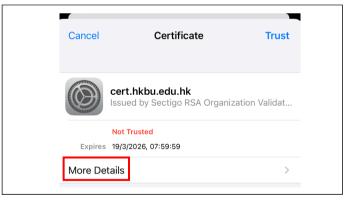

Tap '**Settings**' on your iOS device.

Tap 'Wi-Fi' in the left pane. Select either 'BU-Advanced' or 'BU-Standard' Wi-Fi to connect.

Enter your SSOid as the username and your password to login, then tap '**Join**'.

Tap '**More Details**' before connecting to the Wi-Fi.

Validate the **Fingerprints** (SHA-1) starting with **C1 FB 9F 3B 9B 95**.

If the Fingerprints match, tap '**Trust**' to proceed to Step 6. Otherwise, stop the connection process immediately and report the issue to <a href="mailto:hotline@hkbu.edu.hk">hotline@hkbu.edu.hk</a>.

The **BU-Advanced** or **BU-Standard** Wi-Fi will then be connected successfully.

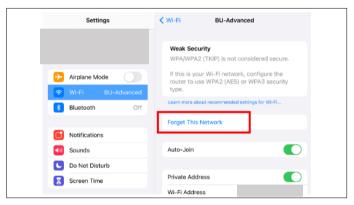

## B. Forget BU-Advanced or BU-Standard Wi-Fi

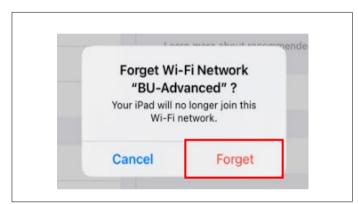

Tap '**Settings**' on your iOS device.

Tap 'Wi-Fi' from the left pane and then tap (i) next to the specific Wi-Fi.

3 Tap 'Forget This Network'.

Tap '**Forget**' to forget that Wi-Fi.

## **C.** Disable Private Address

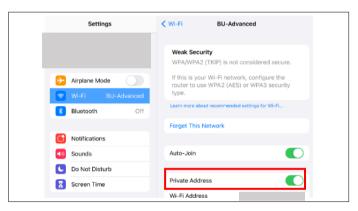

If your device supports the **Private Address** feature, it is recommended to disable it to facilitate user support and network monitoring.

Tap '**Settings**' on your iOS device.

Select '**Wi-Fi**' from the left pane. Tap (i) next to the specific Wi-Fi.

3 Disable the 'Private Address'.

Tap '**Rejoin**' to apply the changes.
