1. On the Windows *Desktop*, click [Windows logo] ➔ [Network] .
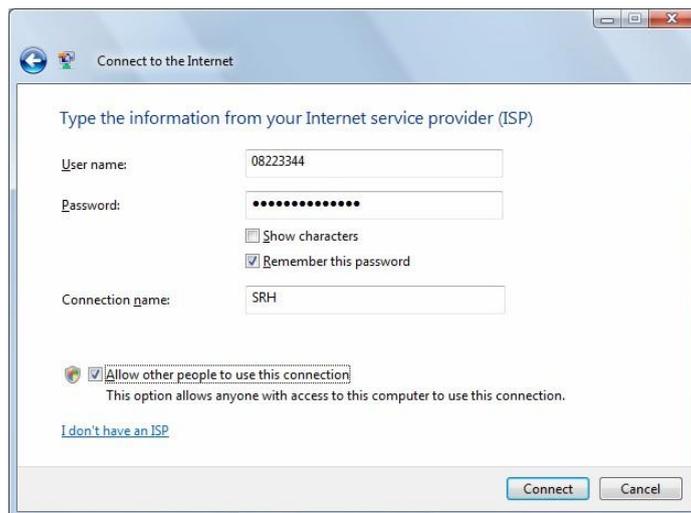

2. In the *Network* Window, click **Network and Sharing Center**.

3. In the *Network and Sharing Centre* Window, click **Set up a connection or network**.

4. In the *Set up a connection or network* Window, click **Connect to the Internet** option and click Next button to proceed.

5. In the *Connect to the Internet* Window, click **Broadband (PPPoE)**. If Broadband (PPPoE) is not found, click the checkbox **Show connection options that this computer is not set up to use**.

6. In the *Type the information from your Internet service provider (ISP)* Window, enter your student ID as the **User name** and your own personal password in the **Password** text box. Enter SRH as **Connection name** and check the option **Allow other people to use this connection**. Click the Create button.

7. In *The connection to the Internet is ready to use* Window, click the Close button to complete your set up. If *The Internet connectivity test was unsuccessful* appeared, select the **Set up the connection anyway** and click the Close button.

8. To make a connection to the SRH Network, click [Windows logo] ➔ [Connect To] . In the *Connect to a network* Window, click **SRH PPPoE Connection** and click **Connect** button. After the *Connect SRH* Window, click **Connect** button. You can surf the Internet after then.
