

HKBU Mobile Biometric Authentication User Guide

Prerequisites:

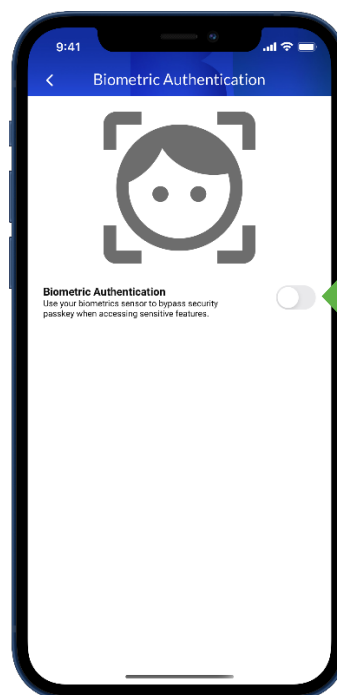

- (1) Please make sure your device **supports biometrics** and **has enabled biometric protection from your device settings**.
- (2) If you still have trouble on registering biometrics, please try to remove all biometrics from your device settings and add them again.

1 Press **Settings** from the bottom bar.

2 Press **Biometric Authentication**.

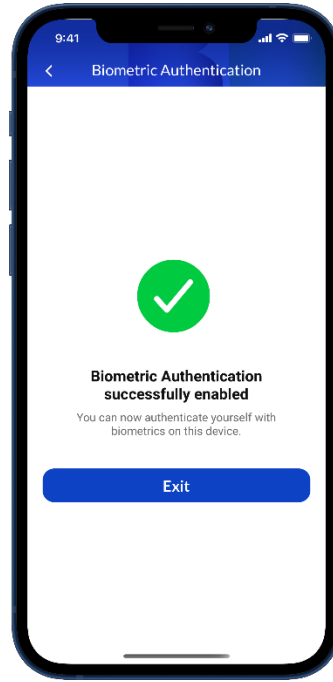

Enable **Biometric Authentication**

3 Enable **Biometric Authentication**.

Input your SSOid password

5 Input your SSOid password.

6 Biometric Authentication is successfully enabled.
