Step to connect BU-Advanced or BU-Standard

1. At the top right hand corner of the Apple desktop, click on the Wi-Fi icon the select "BU-Advanced".

2. Input your SSOid and password, then click "Join".

Ŷ	The Wi-Fi network "BU-Advanced" requires WPA2 enterprise credentials.				
	Mode:	Automatic			
	Username:				
	Password:				
		Show password			
		Remember this network			
?		Cancel Join			

 Important - You must click "Show Certificate" > "Details" and scroll down to validate the Fingerprints (SHA-1) is exactly the same as shown (BE 79 80 96 AB A0 ...), otherwise stop the connection and report to ITO hotline immediately.

- 4. If the Fingerprints is matched, click "Connect".
- 5. Input your system password, then click "Update Settings" to update the Certificate Trust Settings.

6. Done.

Step to forget BU-Advanced or BU-Standard

1. At the top right hand corner of the Apple desktop, click on the Wi-Fi icon the select "Network Preferences...".

2. Click "Advanced...", then select BU-Advanced and click it remove.
