

## Steps to connect BU-Advanced or BU-Standard

1. At the bottom right corner of the screen, click on the Wi-Fi icon 

2. Select "BU-Advanced" or "BU-Standard"

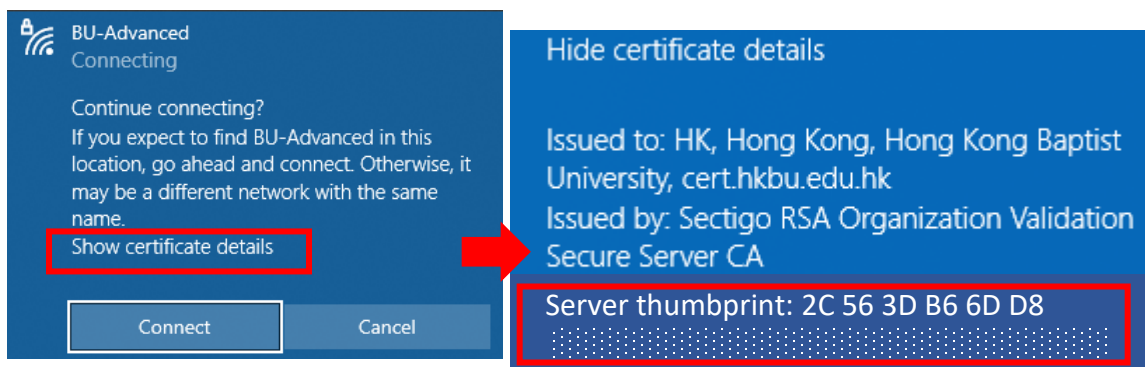

3. Check the "Connect automatically" checkbox and click "Connect"

4. Enter your SSOid and password, then click "OK"

5. **\*\*Important\*\*** - You must click "Show certificate details" and validate the Server thumbprint is exactly the same as shown (2C 56 3D B6 6D D8 ...), otherwise stop the connection step and report to ITO hotline immediately.

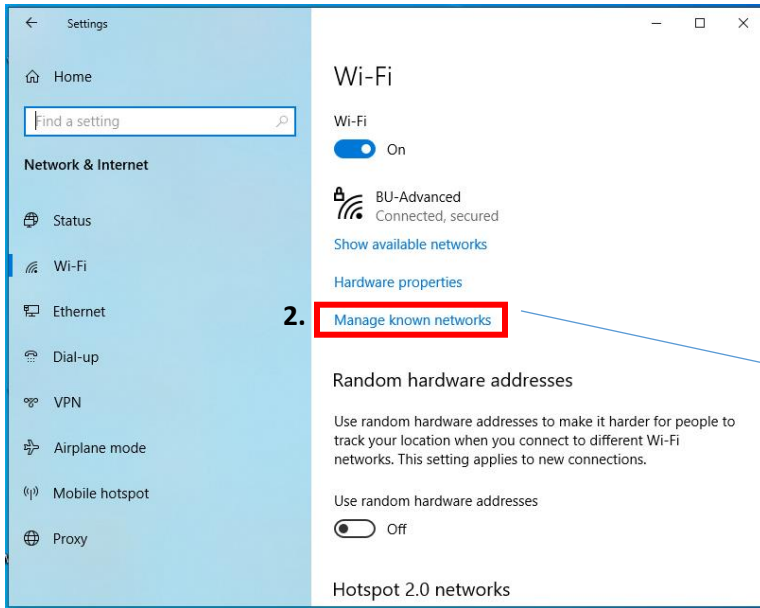

6. If the certificate information is matched, click "Connect".

7. Done.

## Steps to forget BU-Advanced or BU-Standard

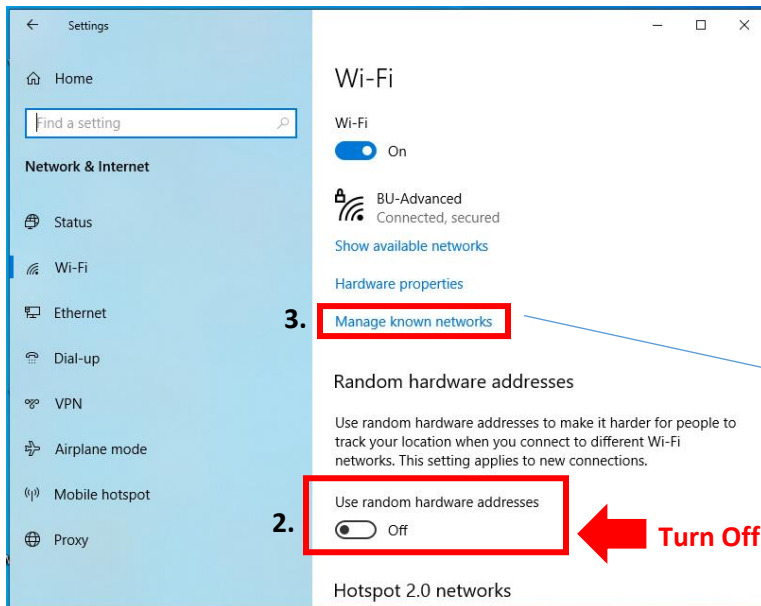

1. Select the Start button  > Settings  > Network & Internet  > Wi-Fi, airplane mode, VPN  > Wi-Fi

## Steps to disable Random hardware addresses

If your device supports “Random hardware addresses”, you need to turn it off globally and in Wi-Fi profile (if it was connected before).

1. Select the Start button  > Settings  > Network & Internet  Wi-Fi, airplane mode, VPN > Wi-Fi
